

REMARKS

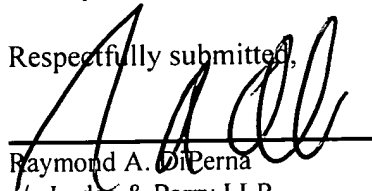

This application has been reviewed in light of the Office Action mailed on February 23, 2011. Applicants note with appreciation the Examiner's indication in the Office Action that claims 1-60 would be allowable if rewritten to overcome the objections set out in the Office Action. Since the claim amendments presented herein are believed to overcome the objections, claims 1-60 are seen to be in condition for allowance.

It is noted that the changes to the claims presented herein have been made for the purposes of clarification only, and no change in scope of the claims is either intended or believed to be effected by the changes. It is also noted that in claim 45, "the neural network" finds antecedent basis in claim 44, second to last line.

Conclusion

In view of the foregoing amendments and remarks, Applicants respectfully request favorable reconsideration and early passage to issue of the present application.

Respectfully submitted,
